**The Challenge**

Maximum of 1200 characters

Describe your challenge

Markham Stouffville Hospital (MSH) is a community hospital located in Markham, Ontario. After an expansion in 2014, MSH doubled in size, added over 100 new inpatient beds, opened 8 new operating rooms, tripled the size of the emergency department and welcomed almost 100 new highly skilled physicians. In addition, MSH welcomed about 300 new employees. Measures were put into place to handle the growth of the organization from an employee perspective through the human resources department, but no such measures have been put in place to account for the significant, ongoing physician growth. Engagement, quality, transparency, onboarding and leadership structure are all key objectives for the organization with respect to the physician group. As a growing organization MSH needs to address these areas with the physician group to increase engagement, transparency, and retention as well as decrease the risk to the organization. Surveys have demonstrated that there is significant room for improvement in the communication channels between physicians and the organization.

We are seeking a solution that would allow for physicians to be onboarded, access vital hospital information, complete required documentation, review leadership structure etc. all remotely to address these areas, increase knowledge transfer and help foster the relationship between physicians and administration.

**Desired Outcomes**

Innovation Partnership **Procurement by Co-Design**
Maximum of 3 outcomes based specifications

Describe outcomes

1. The solution will reduce the time required to onboard physicians by 50% via process improvements and automation once operational
2. The solution will ensure 100% of physicians have access to information required to practice at the hospital and required for onboarding regardless of time, day, and location
3. 20% increase in physician satisfaction with the onboarding process within the areas of knowledge transfer, ease of use, and engagement

Evaluation Criteria
Criteria to be used for vendor selection (NOT to evaluate solutions).
Company
Has the company demonstrated the competency to act as partner? Do they have an innovative vision? Do they have a strong leadership team? Do they have strong references?

Proposed solution vision
Is the proposed solution to the challenge innovative? Do you agree that it can solve the challenge proposed? Will it have a significant impact on the end user (staff, patients, etc.)?

Total cost of ownership
Is the typical cost of ownership of the proposed solution over a 3 year period realistic? Is it competitive? Is it comprehensive?

Ability to execute
Has the company demonstrated the ability to deliver this solution to other clients who have similar challenges? How do the outcomes of previous implementations of the solution panned out?

Strength of supporting validation data
How strong is the data that supports the solution’s proposed ability to meet the provider’s desired outcomes?

Experience of project team
Does the team have experience working on innovative solutions? Did the company propose the right type of project team to take on this engagement?

Staffing and Resources
Does the team have sufficient staff/resources to undertake the project and deliver on time

Co-development
Does the company have any interest in working with MSH beyond the end of the project to further develop this or other related technologies as identified in the design phase?

Key Dates
The following is a summary of key dates in the RFP process. Program sponsor (MaRS) and provider may change any of the dates below, in its sole discretion and without liability, cost, or penalty.

**Terms and Conditions**

1. The “Innovation Partnership: Procurement by Co-Design” program may or may not lead to procurement. There is no requirement for procurement at the end of the program, and procurement is at the discretion of the provider.

2. This Design Challenge document is issued to invite vendors that have existing solutions (or have the competency to develop a solution within the program timelines) to respond and partner with the provider to solve the proposed challenge.

3. There are a number of potential outcomes from participation in this program, and are summarized by the figure below.
4. Interested vendors must respond via submission of an Innovator Brief document, available online on https://www.marsdd.com/systems-change/procurement-co-design/

5. Innovator Brief document must be submitted directly to the provider by the due date listed on the cover page of this document.

6. Questions related to the Challenge being proposed must be directed at the provider. Questions related to the Innovation Partnership: Procurement by Co-Design Program must be directed at MaRS (designchallenge@marsdd.com)
